

VENDORS
(Beginning Band Instruments)

The choice of a musical instrument vendor for beginning band students shall be determined by the high school band staff. Any retail musical instrument vendor shall be entitled to consideration as the vendor of choice. Vendors who wish to make a presentation to our students and their parents regarding the rental program shall, upon request, be given the criteria for determining the vendor of choice.

Students enrolling in the beginning band program shall have complete freedom of choice concerning their instrument acquisition and shall not be required to use the services of the chosen company in order to participate in the beginning band program.
