

FACILITIES PLANNING

The Board is responsible for the regular operation and orderly development of its physical plant. For this reason, the Board concerns itself with both short- and long-range planning as it relates to the properties of the District.

The Board follows a long-term building program to serve as a guide for capital improvements. This program is subject to systematic study, revision and extension. The respective construction projects are acted upon individually when proposed for implementation.

The Board building program is designed to provide adequate facilities to conduct educational programs for all students residing in the District. The building program is based upon specific Board policies which have been, and continue to be, modified to conform to changes in the curriculum, availability of construction funds, technological needs, changes in enrollments and the results of annual evaluation of facilities. The Board establishes priorities using these and other relevant factors.
