

INSTRUCTIONAL OBJECTIVES

Instructors shall identify skills, knowledge and attitudes crucial to the student's successful movement to the next level of learning within each subject area and at each grade level.

A standards-based curriculum is developed and implemented in reading, mathematics, science, social studies and English composition, according to the requirements established by the Ohio Administrative Code.

Courses of study are evaluated on a rotating basis every five years under the supervision of the Superintendent/designee. This evaluation considers the achievement of learning objectives and learning outcomes. This evaluation promotes and guides appropriate revision and updating. The evaluated course of study is presented to the Board for adoption or re-adoption. Development of the course of study is completed by a representative committee and includes development of standards-based goals based in grade-level benchmarks and indicators.

[Adoption date: August 14, 2001]

[Re-adoption date: July 26, 2004]
