

## ASSIGNMENT OF STUDENTS TO SCHOOLS

The Board approves attendance areas. Students attend the school or paired school which serves the attendance area in which their parents reside or, upon acceptance, the student may attend another school pursuant to the District's intradistrict open enrollment policy.

The Superintendent/designee has authority to assign students to schools. The Superintendent/designee is authorized to make exceptions on the basis of hardship, student need or other reasons as determined by the Superintendent/designee, and to assign a student to a school outside his/her own attendance area.

[Adoption date: August 14, 2001]

[Re-adoption date: July 26, 2004]

[Re-adoption date: May 11, 2015]
