

USE OF STUDENTS IN PUBLIC INFORMATION PROGRAM

Distribution of literature through the student population shall be held to a minimum. Information concerning the basic school program shall receive top priority. Publicity concerning school-affiliated organizations may be distributed through the students upon request by a particular group. Information important to the general welfare of the students may also be distributed.

Approval for the distribution of literature through the student body must be obtained from the Superintendent or his/her designated representatives, prior to any distribution.
