

COMMUNITY INSTRUCTIONAL RESOURCES

Helping each student develop to his/her full potential and to become a citizen contributing to the welfare of the community are important objectives of the District's educational program. The Board encourages administrative and instructional personnel to rely on the community as one of its educational resources. The administration may direct community instructional resource programs designed to involve the citizens, institutions and environment of our community in the education of its children.

The Superintendent/designee has supervisory control over the community resources programs, which includes but is not limited to, the school volunteer service, community engagement, student capstone and mentoring programming. Members of the staff and of the community are encouraged to offer their ideas and services through the channels which the administration develops.
