## **Students at Brown do the math to raise \$13,000**

*(Hilliard City School District, Hilliard, Ohio)* – The youngsters at Brown Elementary know how to attract attention.

In a recent philanthropic fund-raiser, the students collected more than \$13,000 for the Ronald McDonald House, which on a temporary basis houses families of children seeking treatment at Children's Hospital.

Not only did the students from Brown rake in the cash, they did it in a way some might find unconventional ... they held a math-a-thon for two weeks.

The students sought pledges for completing math problems, and well surpassed the school's goal of collecting about \$3,000.

Some of the students will get a ride in a limousine for their efforts. Those who collected more than \$100 will be escorted to McDonald's for a free Happy Meal on Oct. 5.

For more information about the fund-raiser, contact Principal Brian Blum, 771-2270.
