Hey y'all! Welcome to your weekly dose of What's #Trending! Here is this week's story.

MET Gala 2018

Fashion's biggest night of the year, The MET Gala, happened last Monday and there's a lot of red carpet approved looks from the biggest A-list celebrities. While the entire point of the gala is to raise funds for the Met's Costume Institute (it raised an impressive \$12 million last year), it's the attendees' outfits which take center-stage. This year's theme was "Heavenly Bodies: Fashion and the Catholic Imagination" and everyone had gorgeous outfits. Click the link below to see all of the celebs outfits from fashion's biggest night, including Rihanna, Zendaya, and Gigi Hadid.

Sunny, A book By Jason Reynolds

By: Audrey Hayes

Author Jason Reynolds, our personally known celebrity, has come out with his new book along with *For Everyone* called *Sunny*. It's the third book in his great series of Track children, the group of children who have a shot at the Junior Olympics, but still has a lot to learn. Sunny is a book about Sunny Lancaster, the best 1600 meter runner and can beat anyone by a good mile. But Sunny doesn't care about running, he wants to dance to the *boom boom chika* and the *ding dong ding* dancing routines. The problem is he can't quit, he loves his team, but he definitely can't be on track and not run or be on track and dance. If Sunny let's lose everything he's been holding inside, will he make the best moves ever or the worst routine of his life?
