

Airplay In's and Out's

By: Hayden Hunt

How to Airplay

Step 1: Download the Connect app

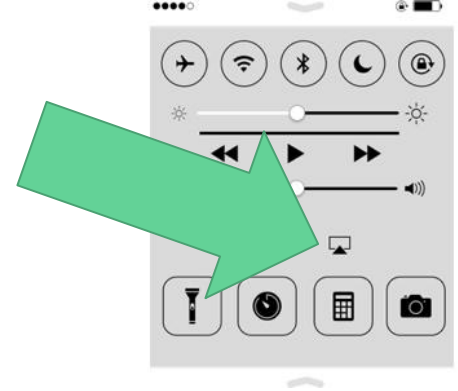

Step 2: Open Connect and allow it to use your camera.

Step 3: Scan your teacher's Connect QR code.

Step 4: Pull up what you want to present.

Step 5: Swipe up at the bottom of your screen, select Airplay Mirroring and select your teacher's computer (The computer should be labeled with your teachers room).

Step 6: You're done!

Roadblocks You May Run Into

1. You may be in Airplane mode.
2. The App/Website you are trying to Airplay is unsupported.
3. Your teacher's Airserver may not be working.
4. Your Connect App might not be updated.

How to Fix the Problems You Ran Into

1. Turn off Airplane mode and make sure you are reconnected to wifi.
2. Try sending your presentation in another format or try sending your teacher your presentation via email.
3. Have your teacher close and reopen their Airserver application and hope for the best.
4. Go to the app portal and update your Connect app.
5. If your teacher's Airserver QR code isn't working they may have an old code and might want to bring their code up on their computer.
