More about PatchesOfLight.org

Each year, thousands of children across America are diagnosed with life-threatening, life-changing, & often-times fatal illnesses. Cancer, heart defects, muscular dystrophy, meningitis, life-saving organ transplantation and AIDS/HIV are just a few of the wide variety of maladies facing today's children. Patches of Light's funding is used to pay for past due mortgages, rent, & utilities. They provide phone cards, gas cards, grocery cards & parking tokens; & they assist with emergencies such as: auto repairs, housing for long distance care, airline tickets, supporting families that stay at the Ronald McDonald House, extermination and/or purification items for bone-marrow patients homes & much more.
