5 Facts About Marvel By: Lakelan

Just in time for the new Marvel cinematic universe movie, Avengers Infinity War I thought I would share with you some facts about marvel. fact 1 did you know they have been planning infinity war ever Since the first marvel cinematic universe, iron man. Fact 2 marvel made by Stan Lee and was started in 1939.

Fact 3 the first comic made by marvel was The Human Torch. Fact 4 Marvel has made over 50000 comic and there still making more. Fact 5 the main villain in infinity war Thanos is one of the most powerful villains in the marvel universe.

And those are the 5 facts about marvel.

NFL DRAFT
By:Chayla

Russell Wilson is the closest NFL comparison for Mayfield, but there are still some obvious flaws in that comp. Mayfield is one of the most polarizing players in this class, in large part due to his outstanding football character and leadership but debatable maturity. Mayfield comes with some red flags (measurables, footwork, played in spread offense).

Post-Draft Analysis

The four first-round quarterbacks the Browns have drafted since

1999 had a combined 32-67 record in Cleveland. Sam Darnold would have been the safer pick to break that trend. However, Mayfield is our fourth-ranked QB, and there's not much that separates him from the two ranked ahead of him. Ultimately, general manager John Dorsey had to ignore the noise and take the QB who he feels fits his organization best.

Here are some draft picks for the year. Billy price from Ohio state to bangles, D.J Moore from Maryland to the panthers and one more for you brown fans Denzel ward from Ohio state to the Cleveland Browns. Also our very own Cleveland Browns drafted Q.B. Baker Mayfield from the Oklahoma Sooners in the first round first pick.

NFL Draft				
	Draftcast	Rounds	Teams	Positions
2 (2)	Sebastian Berkey	Penn State	RB	▼
3 (3)	Sam Darnold	USC	QB	▼
4 (4)	Denzel Ward	Ohio State	CB	▼
5 (5)	Bradley Chubb	NC State	DE	▼
6 (6)	Quenton Nelson	Notre Dame	OG	▼
7 (7)	Josh Allen	Wyoming	QB	▼
8 (8)	Roquan Smith	Georgia	OLB	▼
9 (9)	Mike McGlinchey	Notre Dame	OT	▼
10 (10)	Josh Rosen	UCLA	QB	▼
11 (11)	Minkah Fitzpatrick	Alabama	S	▼
12 (12)	Vita Vea	Washington	DT	▼
13 (13)	De'Von Payne	Alabama	DT	▼
14 (14)	Marion Davenport	UT San Antonio	DE	▼

5 Summer Suggestions

By: Cole and Caitlin

1. Serpent Mound

Nobody actually knows what Native American Indian tribe made serpent mound. Close by there three burial mounds two made by the Adena's and 1 by the Fort Ancient. So most likely it's between the Adena and the Fort Ancients. For you 3rd graders you will learn more about the Ohio native Americans next year! This beautiful landmark in Adena, Ohio attracts many tourists from all around the US, this is a great place to go and spend a day there!

Learn more about times and history on:

<https://www.ohiohistory.org/visit/museum-and-site-locator/serpent-mound>

2. Columbus Park of Roses

The Park of Roses is a popular wedding spot with many different beautiful flowers.

Find out more

on: <https://www.parkofroses.org>

3. The Dublin South Pool

<http://dublinohiousa.gov/pools>

If you live in Dublin, Ohio, the Dublin South pool is a great place to spend some of your summer.

4. New Columbus Metropolitan Hilliard Branch Library

https://www.columbuslibrary.org/sites/default/files/042318_Library_to_dedicate_new_Hilliard_Branch.pdf

5. Balgriffin Park

This 21- acre park with a frisbee golf course, tennis and basketball courts and a playground.

NBA Update

By: Will

I've been writing alot about the Cavs, but for you Golden State fans, I'm going to be writing about them too. Golden State is currently up 2-0 against the Pelicans with a first game score of 101-123 and the second game they won 116-121. Steph Curry is playing well and had 28 points in 27 minutes. (5/3/18)

Golden State and New Orleans face off soon. I will predict that New Orleans will win because they're on a losing streak and it has to be broken some time! (5/4/18)

The Cavs crushed the Raptor and they advance to play the Celtics.

MLB Update

by : Lauren

Starting right up with news about the MLB. "The Cubs sweep Fish behind Bryzso, 8-run frame" says mlb.com (Link

<https://www.mlb.com/news/cubs-of-fense-dominates-in-sweep-of-marlins/c-275969008>). More local

news, the Reds outscore the Mets in overtime innings as they bat out of order and the Reds win the series. This news comes to surprise as the Mets were predicted to win the series against the Reds. Bad call Callaway, am I right?

Standing / Scores:

1. Leading the AL West league, the Astros, win 24 and lose 15.
2. The Indians have had a major turn around by tying

their wins and loses with number 18 on their sheet.

UPCOMING EVENTS:

No School: 5/28/18

Wolfie Awards: 5/30/18

Last Day (Clapout):
5/31/18

Inspirational Story

By: Samantha

Story from: <https://www.livin3.com/5-motivational-and-inspiring-short-stories>

The Potatoes, Eggs, and Coffee Beans

One day a daughter moaned to her father that her life was terrible. She was tired of battling and struggling. After she found a solution to a problem, another one came to be.

Her father, a chef, brought her to their the kitchen. He filled three pots with water and placed each over a hot fire. Once the pots began boil, he placed potatoes in one pot, eggs in the second pot, and coffee beans in the last pot.

He then let them sit and boil, without saying a word to his daughter. The daughter, groaned and impatiently waited, wondering what he was doing.

After twenty minutes he turned off the burners. He took the potatoes out of the pot and placed them in a bowl. He pulled the boiled eggs out and placed them in a bowl.

He then ladled the coffee out and placed it in a cup. Turning to her he asked. "Daughter, what do you see?"

"Potatoes, eggs, and coffee," she hastily replied.

"Look closer," he said, "and touch the potatoes." She did and noticed that they were soft. He then asked her to take an egg and break it. After pulling off the shell, she observed the hard-boiled egg. Finally, he asked her to drink the coffee. Its rich scent brought a smile to her face.

"Father, what does this mean?" she asked.

He then explained that the potatoes, the eggs and coffee beans had each faced the same "problem" – the boiling water.

However, each one reacted differently.

The potato went in strong, hard, and relentless, but in boiling water, it became soft and weak.

The egg was fragile, with the thin outer shell protecting its liquid insides until it was put in the boiling water. Then the inside of the egg had become hard.

However, the ground coffee beans were unique. After they were exposed to the boiling water, they changed the water and created something new.

“Which are you,” he asked his daughter. “When adversity knocks on your door, how do you respond? Are you a potato, an egg, or a coffee bean? “

Moral: In life, below the line events happen, but how you react is all that matters.

Which one are you?

**Potatoes, eggs,
and coffee.**

Which are you?

Inspirational Story

By Luiza

Story from: <https://wealthygorilla.com/10-most-inspirational-short-stories/>

As a group of frogs were traveling through the woods, two of them fell into a deep pit. When the other frogs crowded around the pit and saw how deep it was, they told the two frogs that there was no hope left for them.

However, the two frogs decided to ignore what the others were saying and they proceeded to try and jump out of the pit. Despite their efforts, the group of frogs at the top of the pit were still saying that they should just give up. That they would never make it out.

Eventually, one of the frogs took heed to what the others were saying and he gave up, falling down to his death. The other frog continued to jump as hard as he could. Again, the crowd of frogs yelled at him to stop the pain and just die.

He jumped even harder and finally made it out. When he got out, the other frogs said, "Did you not hear us?"

The frog explained to them that he was deaf. He thought they were encouraging him the entire time.

Moral of the story: People's words can have a big effect on other's lives. Think about what you say before it comes out of your mouth. It might just be the difference between life and death.

Interviewing Students

By: Mallory J

This week we interviewed 5th Grader Emi Schroyer and asked her a couple of questions. Here are the questions and answers.

First question: What is your favorite subject and why?

She says, “My favorite subject is... definitely reading. Because you get to learn tons of things, and stories about the characters and stuff.”

Second question: What are you learning about and do you enjoy it?

“Right now, we are learning about... in math we’re learning about geometry. Geometry is all about shapes like squares, angles, and lines of symmetry.”

Third question: Who is your favorite teacher in your grade?

“Oh, that’s a hard one. Definitely Mrs. Stephens because she’s my home room teacher, and she does a lot of fun stuff.”

Fourth question: Who is your favorite teacher in the school?

“I don’t have a favorite teacher. I loved all the teachers I’ve had in the past and present.”

Fifth and final question: What are some things you like to do out of school?

“I like to play basketball, softball, read, and play on devices like my iPhone, my school iPad, and my computer.”

So that is what Emi said to us and is happy to be interviewed by the *Washington Bulletin* and to be in the paper.

Other Student Interviews:

What is your favorite subject and why?

Answer(s):

Chloe: science-cool experiments

Ainsley: My favorite subject is science because you get to do a lot of fun experiments and plus you get to learn.

Collin: I like because there is rhyming word and silly words.

What are you learning about and why do you enjoy it?

Answer(s):

Chloe- Geometry, I do enjoy it.

Bryce- Learning about the northwest territory and I enjoy it because we get to learn about how Ohio and 3 other states became what they are today.

Who is your favorite teacher in your grade?

Answer(s):

Chloe: Mrs. Chamberlain

Will: Mrs. Jenkins

What are some things you enjoy doing out of school?

Kai- My favorite sport is football and I like wide receiver and quarterback.

More Interviews

By: Lexi, Caitlin, Samantha, Luiza, Chayla

We asked your teachers some questions, would you like to know more? If you answered yes to the question then you will want to read this article.

Why do you enjoy teaching?

ANSWERS:

Mrs. Cooper: They grow a ton. They start as kindergarteners and end as little mature people.

Mrs. Watkins: The most enjoyable part about my job is being with the kids every day. They make me smile and laugh. They mean a lot to me and they make me a better person. I also love to read, write and do math and science experiments and I get to do that every day.

Mrs. Triplett: I love teaching because every day is different and it's fun to learn new things with the students and to see their creative ideas. I really love to witness the progress they make. I love the chance to be a leader with kids.

Mrs. Chamberlain: I love working with students. I love seeing kids faces light up when they understand something.

What do you like about your grade?

ANSWERS:

Mrs. Watkins: Third grade is the best grade because they're becoming so independent and they mature a lot. They also know how to take a joke.

Mrs. Triplett: I love working with my team Mrs. John and Mrs. Graham. We work really well together. What I love about fourth grade students is they have a sense of humor. They can also think about big things that are important to the world. I think that fourth graders have a lot to teach the world and people because they're very smart. I like being able to help them find their voice.

Do you have a favorite subject? Why?

Mrs. Chamberlain: I love all the subjects. I have to say my favorite is probably math.

Mrs. Watkins: My favorite subjects are reading and math.

Mrs. Triplett: Science because I went to some classes over the summer and I learned more about my science topics and then I learned some fun science activities to do with them.

What are you learning about your students?

ANSWERS:

Mrs. Chamberlain: I love the independence that they start to have in second grade and I love how curious they are about second grade.

Mrs. Watkins: I am learning they know a lot about numbers and they love reading and get excited about our read aloud. They also know a ton about technology and they're a lot smarter than I was when I was in the third grade.

Mrs. Triplett: I am learning that students will work really hard and try really hard, if it's something they care about. So I try to find ways to make students get excited and care about something. I'm also learning that students want to come to school and feel safe and feel like they have friends. I'm learning that students have lots of questions on their mind that they want to find answers to. And some of the quiet students don't always say those questions, but that doesn't always mean they aren't thinking of them.

What is your kids favorite educational game to play?

ANSWERS:

Mrs. Chamberlain: I think my kids favorite educational games to play is probably Tinker because they love coding.

Mrs. Watkins: They love Kahoot and they love Math Playground.

Mrs. Triplett: It has changed throughout the year. But at the beginning of the year, it was ST Math. Then, it changed to Ohio Studies Weekly. Right now they like a game called Alchemy.
