

CONSULTANTS TO THE BOARD

In order to pursue its educational mission and also to protect the public's financial investment in the schools, the Board may, from time to time, engage the services of qualified professional consultants to provide new insights and ideas for dealing with especially difficult problems and/or to provide special services which the present staff is unable to provide. The kinds of assistance sought from consultants may include, but are not necessarily limited to: conducting fact-finding studies, surveys and research; providing counsel or services requiring special expertise and assisting the Board in developing policy and program recommendations.

Before engaging any consultant, the Board may require submission of a written proposal which can be incorporated into a contract or purchase order if it satisfies the wishes of the Board. Proposals may detail:

1. specific objectives to be accomplished by the consultant;
2. specific tasks to be performed;
3. procedures to be used in carrying out the tasks;
4. target dates for the completion of tasks;
5. methods to be used to report results to the Board and/or to deliver products or render any service to the Board and/or
6. fees or rate of pay the Board will be charged.

The Board will establish expectations necessary to create an efficient working relationship between the consultant and the Board and/or staff members.

This does not preclude consultants needed for any district operations.
