

ADMINISTRATIVE COUNCILS, CABINETS AND COMMITTEES

The Superintendent may establish such permanent or temporary councils, cabinets and committees which are necessary for proper administration of the Board policies and for the improvement of student learning.

All councils, cabinets and committees created by the Superintendent are for the purposes of obtaining the advice and counsel of administrative and supervisory personnel of the District and aiding in District communication. Functioning in an advisory capacity, such groups may share findings for Board consideration through the Superintendent. Authority for establishing policy remains with the Board; authority and responsibility for implementing policy remain with the Superintendent.

The membership composition and responsibilities of administrative councils, cabinets and committees are defined by the Superintendent and may be changed at his/her discretion.
