

## ELIGIBILITY ZONES FOR PUPIL TRANSPORTATION

The Board provides transportation for resident elementary students, kindergarten through grade eight, who live more than two miles from school and for all students with physical or mental disabilities which make walking impossible or unsafe. The transportation of high school students is optional.

The administration designates and the Board approves areas of residence from which students are provided transportation to schools. The Board may create exceptions to the established eligibility zones.

The Board authorizes the staff responsible for administering the student transportation program to require student identification as a prerequisite to riding a school bus when this is deemed necessary.
