

## ORGANIZATION OF FACILITIES FOR INSTRUCTION

The Board recognizes that the grouping of grades and services within the facilities of the District can promote the efficient operation of the District and help achieve a more effective instructional program.

The housing of grade levels in school facilities and the administration of the instructional program is according to plans developed by the Superintendent and administrative staff, and approved by the Board.

Modifications in the organizational plan of each school may be made by the Board upon the recommendation of the Superintendent. The Superintendent/designee continually monitors the effectiveness of the organizational plan and recommends to the Board modifications in the plan which are in the best interest of students; provides for the equivalency of instructional materials, equipment and personnel and makes the wisest use of resources and personnel to serve the educational goals of the Board.
