

COCURRICULAR AND EXTRACURRICULAR ACTIVITIES

The purpose of education is to develop the whole student. For this reason an educational program must embody, as an essential element, activities which involve students beyond the classroom and foster the values which result from interaction and united effort. Such activities form a logical extension of the required and general curriculum and the elective or special curriculum.

The Board has established the criteria for cocurricular and extracurricular activities consistent with its philosophy of, and goals for, education. All student activity programs must:

1. have educational value for students;
2. be in balance with other curricular offerings in the schools and be supportive of, and never in competition with, the academic program and
3. be managed in a professional manner.

The Board may require that students pay reasonable fees to participate in cocurricular and extracurricular activities.

The following guidelines govern the student activity programs.

1. Student activities are those school-sponsored activities which are voluntarily engaged in by students, have the approval of the school administration and do not carry credit toward promotion or graduation.
2. Each school, under the direction of the principal and professional staff, has a student activity program designed to stimulate student growth and development by supplementing and enriching the curricular activities. All receipts and expenditures are accounted for through the activity account.
3. Each activity should be designed to contribute directly to the educational, civic, social and ethical development of the students involved.
4. The student activity program receives the same attention in terms of philosophy, objectives, social setting, organization and evaluation as that given the regular school curriculum.
5. Each school develops written guidelines and procedures regulating the creation, organization, administration and dissolution of student activity programs. The Superintendent/designee reports to the Board the general purposes/description, of the cocurricular and extracurricular programs of the District.

6. The expenses involved in participating in any school activity and in the total program for a school year should be set so that a majority of the students may participate without financial strain. Special consideration may be given in cases in which the expense of participating would result in exclusion.
7. Each District-support organization must understand that student participation on athletic teams or in cocurricular activities is completely independent of any fundraising activities. Parents, students and interested parties participation in fundraising activities cannot be used in any way to adversely impact student participation.
8. Activities must be open to all students, regardless of race, ethnicity, national origin, citizenship status, religion, gender, sexual orientation, economic status, age, disability or military status.
9. Activities must not place undue burdens upon students, teachers or schools.
10. Activities do not interfere with regularly scheduled classes. This limitation often requires conducting such activities beyond the regular school day.
11. Activities at any level should be unique, not duplications of others already in operation.
12. Students participating in cocurricular and extracurricular activities are expected to demonstrate responsible behavior and good conduct. The Board encourages the development and promotion of sportsmanship in all phases of the educational process, including athletics and all other cocurricular and extracurricular activities.
13. The activity does not exploit the individual or school for commercial purposes.
14. Students suspended and expelled from school are banned from extracurricular activities. Students may also be suspended from extracurricular activities for violations of the Code of Conduct or the Code of Conduct of the particular activity in which they participate. Students absent from school are not permitted to participate in extracurricular activities on that date.
15. Annually, the Board directs the Superintendent/designee to identify supplemental contract positions that supervise, direct or coach a student activity program which involves athletic, routine/regular physical activity or health and safety considerations. Upon the identification of the position, the individual must complete the requirements established by the Ohio Department of Education and State law.
16. Students may be expelled for up to one year for firearm-related or knife-related incidents occurring off school property while at an interscholastic competition, extracurricular event or other school-sponsored activity.

17. Students may be removed from extracurricular activities when their presence poses a continuing danger to persons or property or an ongoing threat of disruption. If a student is removed from extracurricular activities, such removal may include all extracurricular activities in which the student is involved.
18. Resident students enrolled in community schools are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.
19. Resident students attending STEM and STEAM schools are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.
20. Resident students attending a nonpublic school are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned if the nonpublic school the student is enrolled in does not offer the extracurricular activity. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.
21. Resident students receiving home schooling in accordance with State law are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.
22. Prior to exclusion from participation, the student/parent will be given written notification of the intention to exclude and the reason(s) for the intended exclusion. The student will be afforded the opportunity to appear at an informal hearing to challenge the reason(s) for the intended exclusion. The informal hearing will be held with the coach, advisor designee or administrator. Within 24 hours following exclusion, a letter of notification will be sent to the parent or guardian specifying the reason for the student participant's exclusion from participation, the period of time for the exclusion and options, if any. The parent or guardian shall be notified by telephone, when possible, of the exclusion from participation.
23. The Intention to Exclude from Participation form will include the notification of the right of the student or his parent(s)/guardian(s) to appeal such action to the Extracurricular Appeal Committee in their respective buildings. The Appeal Committee will consist of two administrators and two teachers. The committee will be appointed and chaired by the building principal.

A written request for appeal must be made within seven days of the date of the Notice of Intention to Exclude from Extracurricular participation. The appeal should be addressed to the principal.

24. The Appeal Committee shall hear the appeal if such is requested. The Appeal Committee may sustain, modify or set aside the exclusion. Written notification of the outcome of the appeal will be provided the parties involved within 24 hours of the hearing.

25. The decision of the Appeal Committee shall be final.

Costs: All costs for any rehabilitation program or counseling for a tobacco, alcohol or drug problem under these regulations shall be the responsibility of the student.

Definition of Co-curricular and Extracurricular Activities

Generally speaking, co-curricular activities are an extension of the formal learning experiences in a course or academic program, while extracurricular activities may be offered or coordinated by a school, but may not be explicitly connected to academic learning.
