

Hilliard Bradley High School

HEALTH SCREENINGS INFORMATION

The Hilliard City School Nurses will be conducting health screenings on selected grade levels in the near future. Hearing screening is done on kindergarten, 1st, 3rd, 5th, 9th and 11th grade students. Vision is performed on the kindergarten, 1st, 3rd, 5th, 7th, 9th and 11th grade students. These are the grades the Ohio Department of Health recommends for screening. If a student fails the first screening, a second screening is done. If the student then has difficulty a referral will be mailed to the parent. Although all screenings are fairly accurate, this is not a substitute for a regular visit to your physician or eye doctor. If you have any questions, please do not hesitate to call your school nurse.
