### Review on the TV show F.R.I.E.N.D.S

F.R.I.E.N.D.S is one of my favorite TV shows on Netflix. I have watched all the seasons of F.R.I.E.N.D.S multiple times over the past four years. F.R.I.E.N.D.S is a show about a group of friends, 3 girls and 3 boys and their struggles through their 20s. It was made in the late 90's and early 2000's, and had 10 seasons.

One of the strongest quality of F.R.I.E.N.D.S is that it's a very funny show to watch. An example of this is in season 5 episode 3, Phoebe was the surrogate mother for her half brother's triplets. When she was finally giving birth to them, she had to sign into the hospital and the woman at the desk asked, "Who's the father?" She responded with, "No none of them are the father. The father is my brother." Phoebe was going to miss people's reactions to her saying that the father of the babies was her brother. Even though that was true I still enjoyed the look on that lady's face, it was hilarious.

The weaker part of the tv show F.R.I.E.N.D.S is that I personally didn't like the relationship between Ross and Rachel. Over the 10 seasons of F.R.I.E.N.D.S most of the friends dated or ended up together in the end. But there was a "WE WERE ON A BREAK!" thing. Which was a situation when Ross and Rachel were dating, but they got into fight and they went on a break.

But when they were on the break Ross went out with another woman, and Rachel saw this as Ross cheating on her. In all honesty I thought that the whole situation was really dumb but it did add some funny moments to the show.

The final review I would give the TV show F.R.I.E.N.D.S is a 9.5 out 10. Even though F.R.I.E.N.D.S was one of favorite tv shows on Netflix and still is, there were some things that I wish would've went differently in the show. However I would recommend this show to anyone in the mood for a great tv show and a good laugh.
