# GRADUATION REQUIREMENTS

## Earning an Ohio High School Diploma Classes of 2018 and beyond

There is no one-size-fits-all way to graduate. Ohio gives you several options to qualify for a high school diploma. Choose the way that works best for you!

Remember to Choose the BEST option for you!

### Option 1 Score 18 Points on State Tests

#### Ohio's State Tests

Earn at least 18 points on seven end-of-course state tests.

End-of-course tests are:

Algebra I or Integrated Math I  
Geometry or Integrated Math II  
American Government  
American History

English I  
English II  
Biology

Each test score earns you up to five graduation points. You must have a minimum of four points in math, four points in English and six points across science and social studies. Your school and district receive grades on the Ohio School Report Cards for all students' scores and participation on state tests.

### 18 Points on State Tests

For each of the seven end-of-course state tests, a student earns one to five graduation points. Students have the potential to earn a total of 35 points. To meet this graduation option, a student must earn a minimum number of 18 points from the seven tests.

This graduation option gives a student flexibility in accumulating 18 points. A high score on one test can balance a low score on another test. A student must earn a total of at least four points on English tests, four points on math tests and six points on science and social studies tests.
