RESPONSE TO INTERVENTION FLOWCHART

Physician Referral

Teacher Referral

Parent Referral

Student Referral (When student is 18 years of age)

Principal Referral

Response to Intervention Team

Student Intervention/Success Plan Created

Intervention Plan Monitored for Success

If interventions found to result in increased student success, continue plan and monitoring process

If interventions do not produce increased student success, plan adjusted with new interventions, monitor

RTI Team begins Multi-factored Evaluation

Interventions found to be unsuccessful

Adjust RTI Plan.

Adjusted plan results in success, continue to monitor
