
Importing Books from Canvas to iBooks

By: Kalli Barcroft

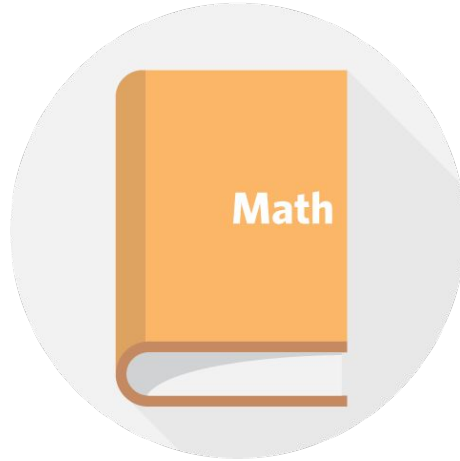

Step one

Go into the Canvas app and tap on the online textbooks course.

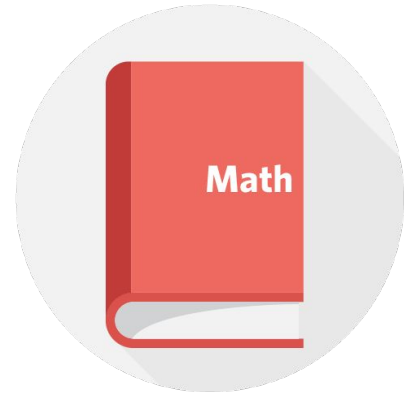

Step two

Once you are in the course, find the subject that you need the book for and click on that subject.

Step three

Once you click on the subject, find your grade level and click on that book.

Algebra 1

Step Four

Once you choose the correct grade you will see many different choices of books to choose. Find the one for the unit you need, and click on the link underneath where it says “ iBook version for iPad.”

Unit 1A - Representing Relationships Mathematically - Part 1

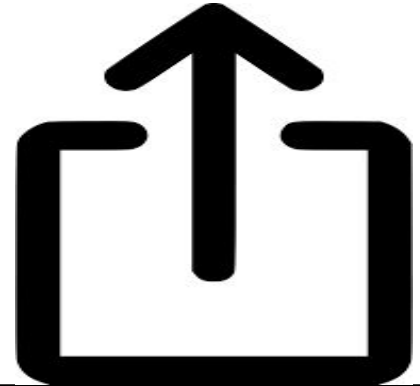

Unit 1B - Representing Relationships Mathematically - Part 2

[1A iBook](#)

[1B iBook](#)

Step Five

After you have selected the correct unit for the course, click on the sharrow button in the top right corner.

Step Six

Once you click the share button, a list of different app choices for you to send it to will pop up. Select iBooks.

Step Seven

From there there you can open the iBooks app and go ahead and open the book you just downloaded and it will be ready to use!
