Board Policy Development and Adoption

The formulation and adoption of written policies constitute the basic method by which the Board exercises its leadership in the operation of the District. The study and evaluation of reports concerning the execution of its written policies constitute the basic method by which the Board exercises its control over District operations.

The formal adoption of policies is recorded in the minutes of the Board. Only those written statements so adopted and recorded are regarded as official Board policy.

Proposals regarding Board policies and operations may originate at any of several sources, including students, parents, community residents, employees, Board members, the Superintendent, the policy service provider, consultants, or civic groups. Regardless of where the proposal originated, the Superintendent/designee shall share the proposal with all Board members.

All proposed new policies, revisions of current policies or additions to current policies shall be reviewed by the Policy Review Committee prior to being presented to the Board for adoption unless there is an emergency as described herein. The Policy Review Committee shall be composed of two Board members, representation of building and District level administrators and other **staff members** as appointed by the Board President or the Superintendent/designee.

The agenda for the Policy Review Committee will be set by the Superintendent/designee in consultation with the Board members on the Policy Review Committee. A proposal will automatically be placed on the agenda at the written request of any two Board members or when the proposal has been made by the Board's policy service provider.

The Policy Review Committee will review and discuss all proposals placed on the agenda and will make recommendations to the Board to accept, modify or reject proposals made. The Committee's recommendations will be made by consensus. If consensus cannot be reached, any differing recommendations will be recorded in the Committee's minutes. The Superintendent/designee will provide the minutes to all Board members. After considering the work of the Committee, the Superintendent, in consultation with the Board President, will determine what policies will be placed on the Board agenda per Board policy BDDC. Final action on proposals, whatever their sources, is by the Board in accordance with this policy.

Two readings at two separate meetings shall normally be required before a new policy or a policy amendment can be adopted. Action to adopt will take place at a subsequent or third meeting of the Board. The Board does have the option, however, of voting for adoption at the second meeting.

All policy proposals that come before the Board for a third reading, or that come before the Board for a second reading if the Board intends to vote for adoption at a second reading, shall be included in full with the publicly released agenda. Once the agenda including the full policy language has been released, the Board may not move to amend the language prior to a vote, except to correct spelling or grammatical errors, or to add a citation. If the Board wishes to amend proposed policy language that would change the substance,

source or effect of the policy, it may do so if properly moved, seconded and adopted by a majority of the Board. However, the policy vote must then be tabled to a subsequent meeting.

Unless otherwise specified, a new policy or policy amendment shall be effective upon the date of adoption by the Board and shall supersede all previous policies in that area. Unless otherwise specified, the repeal of a policy shall be effective on the date the Board takes such action.

When the superintendent determines there is an emergency, policies may be adopted or amended at a single meeting of the Board without review by the Policy Review Committee. An emergency shall be defined for the purposes of this policy as any situation or set of circumstances which the Superintendent has reason to believe that the education or operations of the District will be substantially disrupted or the safety or welfare of the students, employees or school community will be jeopardized.

~~Pregnant Students~~ Pregnant Students and Related Conditions

The District does not discriminate against or exclude any student from school programs or activities on the basis of the student's pregnancy, childbirth, false pregnancy, termination of pregnancy or recovery therefrom (herein after referred to as "pregnancy" or "pregnant"). The District affirms the right of such students to continue participation in the education programs and activities of the District including extracurricular activities.

Efforts are made to ensure that the educational program of the student is disrupted as little as possible. Students under the age of 18 are still subject to compulsory education requirements. Students 18 or older are encouraged to return to school after pregnancy and complete requirements for graduation.

The District works with students to determine the educational options available for students if alternate educational methods are needed. If the District provides an alternate program for pregnant students, participation in such program is voluntary based on an individual student's request. Such programs are comparable to programs offered to non-pregnant students.

The District will not require a pregnant student to obtain a physician's certification that the student is physically and emotionally able to continue participation in programs of the District unless such a certification is required of all students for other physical or emotional conditions requiring the attention of a physician.

The District treats pregnancy in the same manner as other temporary disabilities, including but not limited to policies for absences and grading.

~~The Board affirms the right of a pregnant student to continue her participation in the educational program.~~

~~As soon as the pregnancy is medically confirmed, the Board recommends that the student consult with a member of the student personnel staff or the principal to plan her educational program.~~

~~With the assistance of staff, the student may elect any of the following educational plans or suggest alternatives.~~

- ~~1. She may remain in her present school program, with modifications as necessary, until the birth of her baby is imminent or until her physician states that continued participation would be detrimental to her health or that of the baby.~~
- ~~2. When information has been obtained from the student's physician indicating that the student is unable to attend school, alternate educational experiences will be made available at school expense until her physician states that she is physically able to return to school.~~

~~Efforts are made to ensure that the educational program of the student is disrupted as little as possible and that she receives health and counseling services, as well as instruction. Students under the age of 18 are still subject to compulsory education requirements. Students 18 or older are encouraged to return to school after delivery and complete requirements for graduation.~~

Recruiters in the Schools

The Board will not impose any restriction on the presentation of career information to students that is not uniformly imposed on representatives of the armed forces, skilled trades, institutions of higher education, career-technical education providers, business, industry, charitable institutions, and other employers or prohibit the presentation of information or recruitment of students by those representatives for employment, employment training, or education on the District's campus. The Board provides equal access to any of the District's employment or placement services to all of the entities described in this policy.

~~All recruiters, military, nonmilitary, commercial, charitable and educational, are treated uniformly in the conduct of on-campus student recruitment.~~ Scheduling of recruiting visits to the District is announced to the student body in advance. The District provides at least two opportunities per school year for recruiters to present information in person to all students in grades nine through 12, individually or in a group setting.

All group meetings are to be scheduled through the principal's office or designee. Classroom teachers who schedule recruiters as a career awareness activity should coordinate these activities through the appropriate building administrator.

~~In order to maintain the privacy of its students, the Board prohibits the disclosure of any student list to any commercial organization which intends to use the list for commercial purposes. "Student list" is defined as Board-approved directory information. "Commercial organization" is defined as any entity which is a for-profit organization. "Commercial purpose" is defined as any activity which is an attempt to solicit business for profit. The Superintendent shall establish a procedure to be followed by all corporation employees when a request for a student list is made by a commercial organization.~~

Names, addresses, school email addresses and telephone listings of secondary school students must be released to a recruiting officer of the armed forces unless a parent or student (age 18 or older) submits a written request not to release the information. The District notifies parents and students (age 18 or older) of their right to submit a written request not to release such information.

All recruiters are expected to abide by all applicable laws, local ordinances, Board policies and District and building regulations pertaining to public conduct on District property.
