Summer School

Summer school credits are accepted toward graduation provided that administrative approval has been given prior to registration for the course.

Educational Options

High school credit is awarded to students who successfully complete Board-approved educational options that count toward the graduation requirements and subject area requirements.

College Credit Plus and Post Secondary Enrollment Options

Credit is awarded for a course successfully completed at an accredited postsecondary institution. High school credit awarded for a course successfully completed under College Credit Plus, or where applicable the former Postsecondary Enrollment Options Program, counts toward the graduation requirements and subject area requirements of the District. If a course comparable to the course successfully completed is offered by the District, then comparable credit for the completed equivalent course is awarded. If no comparable course is offered, the District grants to the student an appropriate number of credits in a similar subject area.

Correspondence Courses

High school courses offered through correspondence courses are accepted for credit toward graduation only when they meet the following criteria.

1. Credits earned in correspondence schools directly affiliated with state universities are evaluated by the school administration for students who wish to qualify for graduation from high school.
2. Credits earned from correspondence schools not directly affiliated with an accredited college or university may not be applied toward graduation.
3. Credits earned from schools, which have been established primarily for correspondence study, rather than an institution primarily for residence study, are not accepted toward graduation.

Coursework Prior to Ninth Grade

Student work successfully completed prior to the ninth grade is applied towards graduation credit if the course is taught by a teacher holding a license valid for teaching high school and is designated by the Board as meeting the high school curriculum requirements.

Physical Education Exemption

A student who, during high school, has participated in interscholastic athletics, marching band or cheerleading for at least two full seasons is not required to complete any physical education courses as a condition to graduate. However, the student is required to complete one-half unit, consisting of at least 60 hours of instruction, in another course of study (see IKF-R for detailed information).

Junior Reserve Office Training Corps (JROTC) Exemption

A student who has participated in JROTC for at least two full school years is not required to complete any physical education courses as a condition to graduate. In addition, the academic credit received from participating in JROTC may be used to satisfy the one-half unit of Physical Education and completion of another course is not necessary for graduation.

Community Service

The District offers community service education which acquaints students with the history and importance of volunteer service and with a wide range of existing community needs. Community service opportunities may be considered an elective towards graduation.

Graduation Requirements Opt Out

The District offers students entering the ninth grade on or after July 1, 2010, and before July 1, 2016, the ability to opt out of the graduation requirements curriculum in compliance with Board policy and regulations and all procedural requirements stipulated by the school.

GRADUATION REQUIREMENTS

(Waiver of High School Physical Education Curriculum and Graduation Requirement
for High School Students Participating in District-Sponsored Interscholastic
Athletics, Marching Band or Cheerleading)

As stated in Section 3313.603 of the Ohio Revised Code, students in grades 9-11 may be excused from the physical education course requirement by participating in District-sponsored interscholastic athletics, marching band or cheerleading for at least two athletic seasons during high school grades 9-11. The Ohio Revised Code defines District-sponsored interscholastic athletics, marching band or cheerleading as any high school athletic team, high school cheerleading squad or high school marching band of the Hilliard City School District that participates in the District's regular athletic season(s) (as such seasons are established under the rules and bylaws of the Ohio High School Athletic Association) and is operated under the supervision of a District employee. Club activities and/or club sports are not considered part of District-sponsored athletics, marching band or cheerleading.

High school students in grades 9-11 who meet this requirement shall not be required to complete any physical education course as a condition to graduate. In order to be eligible for graduation, a high school student who is excused from the high school physical education class requirement must complete at least 60 hours of instruction (one semester) in another course of study. Such 60 hours of instruction shall be separate from and in addition to all other courses of study and hours of instruction that are required to graduate.

At the conclusion of each season, coaches/band directors will submit a roster of students who have satisfactorily completed the season (a minimum of 60 contact hours). The guidance office of each high school will track and record this information.

A high school student who has not fulfilled his/her physical education requirement prior to the beginning of his/her senior year will be scheduled into a physical education class. Participation in District-sponsored interscholastic athletics, marching band or cheerleading during the senior year cannot be used to fulfill the physical education graduation requirement.

A high school student who has earned physical education credit prior to the start of the 2009-2010 school year can finish the physical education requirement either through completion of another physical education course or through participation in two athletic seasons. Participation in District-sponsored interscholastic athletics, marching band or cheerleading seasons prior to the 2009-2010 school year cannot be used to fulfill the physical education requirement.

Participating in District-sponsored interscholastic athletics, marching band and/or cheerleading is a privilege and not a right. This policy shall not in anyway be construed as granting a student the right to participate in such District-sponsored interscholastic athletics, marching band and/or cheerleading. A student who participates in District-sponsored interscholastic athletics, marching band and/or cheerleading and is excused from the physical education course requirement pursuant to this policy earns no high school credit for such participation, and any and all District rules and policies, including, but not limited to, the Code of Conduct for Student Participation in Extracurricular Activities continue to apply in full and without limitation to such student's ability to participate or to continue to participate in District-sponsored interscholastic athletics, marching band and/or cheerleading. In addition, any student so participating pursuant to this policy shall be subject to any athletic fee and/or "Pay-to-Participate" fee and, pursuant to other Board policy and/or rules, nonpayment of any such fee(s) will result in denial of participation in the activity.

The Board recognizes that use of illicit drugs and unlawful possession and use of alcohol is wrong, harmful and illegal. It also recognizes that individuals who are experiencing problems with alcohol and other drugs need assistance, which may vary; the District is committed to working cooperatively with the student and family to help provide beneficial alternatives. Information will be available about drug and alcohol counseling and rehabilitation and re-entry programs for students. Such District resources as student groups, parent groups, school psychologists, student assistance coordinator, core team and special transitional programs are to be encouraged, made available and recommended. Students and parents will also be given information about outside agencies and encouraged to take advantage of their services and programs. Parents and students will be given a copy of the standards of conduct and the statement of disciplinary sanctions through parent/student handbooks. Compliance with these standards of conduct is mandatory for students.

Students shall not possess, use, sell, give or otherwise transmit, or be under the influence of any drug or alcohol. They shall not possess or bring on school property tobacco products, matches, lighters or other paraphernalia normally associated with tobacco use. Tobacco use by students is prohibited in school buildings, in school vehicles and on school grounds, at all times. Any type of drug paraphernalia is prohibited in school buildings, in school vehicles and on school grounds. The Board prohibits the use or possession of alternative nicotine products and electronic cigarettes by any student in any area or vehicle under the control of the District or at any activity supervised by any school within the District. All items will be subject to confiscation.

This policy is subject to enforcement and/or disciplinary action:

1. on property owned, leased by or under control of the Board, including vehicles for transporting students;
2. on any public or private property during scheduled school hours including recess, lunch and class changes and
3. at any school-sponsored or sanctioned activity or event away from or within the District.

Actions set forth below will be considered normal disciplinary measures for each category and occurrence of offense and shall be administered in accordance with the policies and regulations of the Board.

Students who voluntarily request assistance or counseling/self-referral in situations where no offense, as specified below, has been detected will not be subject to disciplinary action based on information divulged.

Where an offense, as specified below, has been detected, violations of school policy will not be excused because the student has requested counseling.

Offenses and violations of this policy are accumulative during a student's participation in cocurricular and extracurricular activities during his/her K-12 education:

1. during a student's participation in cocurricular and extracurricular activities throughout the elementary years (K-6);
2. during a student's participation in cocurricular and extracurricular activities throughout the middle school years (7-8) and

ON DISTRICT PROPERTY BY STAFF MEMBERS

The Board is dedicated to providing a healthy, comfortable and productive environment for its staff, students and citizens. Health professionals have determined that smoking/use of tobacco/nicotine poses health hazards not only for the smoker/user, but for the nonsmoker as well.

Recognizing these health issues, the Board prohibits the smoking, use or possession of tobacco in any form including, but not limited to, cigarettes, cigars, clove cigarettes, chewing tobacco, snuff, alternative nicotine products, electronic cigarettes, **smoking devices, vaping devices** and any other forms of tobacco at any time, including non-school hours, and in or on District property, including:

- in any building, facility, or vehicle owned, leased, rented, or chartered by the school district; and
- on school grounds, athletic grounds or parking lots; and
- at any school-sponsored or school-related event, whether such event occurs on-campus or off-campus.

The Board directs the Superintendent to educate all staff members concerning the mandate of this policy, as well as implementing, as appropriate, educational programming concerning smoking and, if needed, resources available to those who wish to discontinue their smoking habit.

A notice to this effect is posted at the entrance to all school buildings and in a visible place in all school vehicles.

Disciplinary actions taken against staff for violations of this policy need to comply with requirements of Ohio law, related district policies and staff negotiated agreements.

TRUANCY

The Board endeavors to reduce truancy through cooperation with parents, diligence in investigating the causes of absence and use of strict guidelines in regard to tardiness and unexcused absence.

When the Board determines that a student has been truant and that the parent, guardian or other person having care of a child has failed to ensure the child's attendance at school, State law authorizes the Board to require the parent to attend a specified educational program.

This program has been established according to the rules adopted by the State Board of Education for the purpose of encouraging parental involvement in compelling the child's attendance at school.

On the request of the Superintendent/designee, or when it comes to the attention of the school attendance officer or other appropriate officer of the District, the designated officer must investigate any case of supposed truancy within the District and must warn the child, if found truant, and the child's parent in writing of the legal consequences of being a "habitual" truant.

A "habitual" truant is any child of compulsory school age who is absent without a legitimate excuse for 30 or more consecutive school hours, 42 or more school hours in one month or 72 or more school hours in a school year.

"Excessive absences" is defined as a child of compulsory school age who is absent with or without legitimate excuse for 38 or more school hours in one month or 65 school hours in one school year.

The parent is required to have the child attend school immediately after notification. If the parent fails to get the child to attend school, the attendance officer or other appropriate officer, if directed by the Superintendent/designee or the Board, must send notice requiring the child's parent to attend a parental education program.

Regarding "habitual" truants and excessively absent students, the Board must take as an intervention strategy any appropriate action contained in the Board policy.

The Board directs the administration to develop intervention strategies that include all of the following actions if applicable:

1. providing a truancy intervention plan meeting State law requirements for any student who is excessively absent from school;

2. providing counseling for a habitual truant or excessively absent student;
3. requesting or requiring a parent having control of a habitual truant or excessively absent student to attend parental involvement programs;
4. requesting or requiring a parent of a habitual truant or excessively absent student to attend truancy prevention mediation programs;
5. notification to the Registrar of Motor Vehicles or
6. taking appropriate legal action.

The attendance officer provides notice to the parent of a student who is absent with **a nonmedical excuse** or without excuse for 38 or more hours in one school month or 65 or more hours in a school year within seven days after the date of the absence triggering the notice. At the time of notice, the District may take any appropriate action as outlined in this policy as an intervention strategy.

Absence Intervention Plan

Beginning with the 2017-2018 school year, when a student's absences surpass the threshold for a habitual truant, the principal or the Superintendent assigns the student to an absence intervention team within 10 days of the triggering event. The absence intervention team must be developed within seven school days of the triggering event and is based on the needs of the individual student. The team must include a representative from the student's school or District, a representative from the student's school or District who knows the student and the student's parent or their designee, and also may include a school psychologist, counselor, social worker or representative of an agency designed to assist students and their families in reducing absences. During the seven days while developing the team, the Superintendent or principal makes at least three meaningful, good faith attempts to secure participation of the student's parent. If the student's parent is unresponsive the District investigates whether the failure to respond triggers mandatory reporting to the appropriate children's services agency and instructs the absence team to develop the intervention plan without the parent.

Within 14 school days after a student is assigned to a team, the team develops a student specific intervention plan to work to reduce or eliminate further absences. The plan includes, at minimum a statement the District will file a complaint in juvenile court not later than 61 days after the date the plan is implemented if the student refuses to participate or fails to make satisfactory progress. The District makes reasonable efforts to provide the student's parent with written notice of the plan within seven days of development.

The absence intervention plan for a student may include contacting the juvenile court to have a student informally enrolled in an alternative to adjudication. The Board directs the Superintendent to develop written procedures regarding the use of and selection process for offering these alternatives to ensure fairness.

If the student becomes habitually truant within 21 school days prior to the last day of instruction of a school year, the District may either assign a school official to work with the student's parent to develop an intervention plan during the summer and implement the plan no later than seven days prior to the first day of instruction of the next school year, or reconvene the absence intervention process on the first day of instruction of the next school year.

Filing a Complaint with Juvenile Court

Beginning with the 2017-2018 school year, the attendance officer must file a complaint against the student in juvenile court on the 61st day after implementation of the absence intervention plan when:

1. the student's absences have surpassed the threshold for a habitual truant;
2. the District has made meaningful attempts to re-engage the student through the absence intervention plan, other intervention strategies and any offered alternatives to adjudication and
3. the student has refused to participate in or failed to make satisfactory progress on the plan or any offered intervention strategies or alternatives to adjudication as determined by the absence intervention team.

If the 61st day after intervention falls on a day during the summer months, the District may extend the implementation of the plan and delay the filing of the complaint for an additional 30 days after the first day of instruction of the next school year.

Unless the absence intervention team determines the student has made substantial progress on their absence intervention plan, the attendance officer must file a complaint against the student in juvenile court if the student is absent without legitimate excuse for 30 or more consecutive hours or 42 or more hours during a school month at any time during the implementation phase of the intervention plan or other intervention strategy.
