What is Game-U?

GAME-U® is an after-school program designed to nurture valuable life skills by teaching kids how to design their own video games. Developed by game industry veterans, GAME-U gives kids a fun, inspiring, hands-on learning experience.

Our Philosophy

GAME-U wants kids to be as excited to make games as they are to play them, so we always emphasize keeping our programs fun as well as challenging. Every course, contest, and achievement earns the students experience points (XP). Students redeem XP points for cool prizes!

"The opinions, products, activities and/or services of this organization are neither sponsored nor endorsed by the school district."

SUMMER CAMPS 2019

THIS SUMMER LEARN
**GAME DESIGN,
CODING,
ART & ROBOTICS**
FROM THE PROS!

614-659-7203

3570 Fishinger Blvd
Hilliard, OH 43026

(Located inside Game Arena)

Esports Camp!

Game-U is teaming up with Game Arena to hold the first ever full day, competitive esports training camp! Learn to play games like Fortnite, Overwatch, and Rocket League at a high competitive level and in a team-based environment! Campers train to excel at each game, picking up expert tips, strategies, and coaching, while learning more about how pro eSports leagues work. The camp will include special guest speakers from different levels in professional esports, curriculum designed by professional players, and an end of camp tournament with the most worthy players going home with a trophy.

In the morning...

- Learn expert strategies and tips
- Review gameplay footage
- Take part in practice drills
- Compete in skills competitions
- Listen to guest speakers

In the afternoon...

- Compete in mock tournaments
- Battle in team based competitions
- Play practice rounds
- Prepare for the end of the week championship tournament

Available Seats: 30 per session

Hours: 9am - 4pm

Cost: \$450

Camp Dates:

June 3-7 • Ages: 10+ (co-ed)

June 24-28 • Ages: 10+ (co-ed)

July 29- Aug 3 • Ages: 10+ (co-ed)

Adventurer (Ages 6-8)

Designed to excite and inspire, the Adventurer Camp introduces our youngest students to the wonders of game design, robotics, and 3D modeling. Adventurers tackle a wide range of challenges as they build games, practice illustration, learn electronic circuits, program robots, and create and print 3D models. Get ready for an adventure!

Available Seats: 6 per session

Hours: 9am - 12pm

Cost: \$200

Camp Dates:

June 17-21 • July 15-19

Explorer (Ages 8-10)

Explore the world of game development to build your own game! Campers use tools like Project Spark, Roblox, Piskel, and TinkerCAD to learn what goes into a real game. They get hands-on practice with level and character design, programming, and mechanics. Everything builds towards the final project as campers create games of their own!

Available Seats: 6 per session

Hours: 9am - 12pm or 1pm - 4pm

Cost: \$225

Camp Dates:

July 8-12 (Afternoon) • July 22-26 (Morning)

Pioneer (Ages 10-12)

Create full-length, 2D side-scrolling adventures, space shoot-em-ups, puzzle games, Minecraft mods, and more on pro game tools! Pioneers use editors like GameMaker and Construct 2 as they study the fundamentals of game design, computer programming, and pixel art - with the option to publish their games for iOS, Android, or HTML5. Their only limit is their imagination!

Available Seats: 6 per session

Hours: 9am - 12pm or 1pm - 4pm

Cost: \$238

Camp Dates:

June 17-21 (Afternoon) • July 8-12 (Morning)

Youtube/Twitch Jr. & Adv. (Ages 10-12) (13+)

Learn the world of streaming on Twitch! All you need is your voice and a microphone. Campers learn how to create quality instructional videos and an appealing brand, as well as practice techniques to present a fun, engaging, and relatable on-camera personality. (*NOTE* Only content created by students in the 13+ camp will be put on the internet)

Available Seats: 6 per session

Hours: 9am - 12pm or 1pm - 4pm

Cost: \$238(Jr.) | \$250(Adv)

Camp Dates:

June 10-14 (Morning) • Ages: 13+ (co-ed)

July 8-12 (Afternoon) • Ages: 10-12 (co-ed)

July 22- 26 (Morning) • Ages: 10-12 (co-ed)

Minecraft Modding (Ages 8-12)

For all of our Minecraft fans, it's time to go all out! We're taking Minecraft to the next level. Start learning how to "Mod" (modify) Minecraft using age-appropriate, easy-to-understand methods. Create your own original mods that you can share with your friends in multiplayer!

Available Seats: 6 per session

Hours: 9am - 12pm or 1pm - 4pm

Cost: \$225

Camp Dates:

June 10-14 (Morning) • July 22-26 (Afternoon)

Voyager (Ages 12+)

Love gaming? Wondering what goes on behind the scenes? Come find out! Take apart popular game genres like Action-Adventurer or Auto Racing and learn to build your own video game using Unity, a professional game editor. Our Voyagers dive headfirst into the exciting world of coding as they write game interactions in C#. At the end of the week, they become published indie game designers by sharing their work on the iOS, Android, or HTML5 platforms. No previous experience is required!

Available Seats: 6 per session

Hours: 9am - 12pm

Cost: \$250

Camp Dates:

June 10-14 • July 15-19
